

(Washington, D.C.) – Congressman Wally Herger (R-CA) today unveiled his new Congressional website, www.herger.house.gov. The site's features include a video section, a biography of Congressman Herger, constituent services links, press releases, e-updates, columns, and pictures in a streamlined, easy-to-use format. Herger's comments on the new website appear below:

“In today’s modern media age, it is important for members of Congress to take advantage of every available opportunity and new technology to stay in touch with the people we represent. This new and improved website offers the people of Northern California improved access to the issues that are before Congress and helps me to better inform constituents about my work here on their behalf. The new site is user-friendly and will allow constituents to easily contact me and see my votes on current issues, stay updated on the happenings of Congress and watch video of floor speeches and interviews. It is my hope that the residents of the 2nd Congressional District will find this to be a valuable resource.”
